Summary

UI Designer and front-end developer with a passion for minimalistic and flat design. I enjoy the process of taking an idea from birth to wire framing to prototyping and complete production. My main aim is always to create meaningful experiences through design.

Work Experience

Revuli - Intern Front End Developer

Oct 2019 - March 2020

Worked with the creative design & developers' team in an agile setting to deliver corporate identity solutions for Revuli clients. Increased user satisfaction (+15%) and user interface of Envo clothing website. Helped design and develop web apps for a variety of small companies around South Africa.

Duties & Responsibilities

- Developing new approved user-facing features with mobile first design.
- Turning Photoshop/Figma files into animated, responsive web pages using HTML5, CSS3
- Building reusable and maintaining code
- Thoroughly testing websites on multiple browsers and mobile devices.
- Working closely the with design team to ensure the technical feasibility of UI/UX designs.
-

Fiverr - Freelance UI designer

Dec 2020 - Nov 2021

Provided UI/UX services to various clients mainly in the e-commerce and entertainment industry.

Designed and developed portfolio and business websites for start-up companies and small design studios

Designed android apps in accordance to material design systems & android design systems.

Created mock-ups, prototypes and animations in HTML/CSS to support user research and communicate interaction and design ideas and direction.

Duties & Responsibilities

- Working collaboratively with the client's team of developers
- Creating UX documentation (flows, wireframes, prototypes, etc.)
- Presenting and defending work to teams and stakeholders
- Making design decisions based on UX best practices and standards, such as Material Design
- Delivering approved UI/UX controls, layouts, fonts, placement, navigation, etc.
-

We Are Seven - UI/UX Designer

Dec 2020 - Present

Worked with a team of digital and graphic designers to cover the brand identity of various digital projects and provide concept design work for websites, SaaS products, and mobile apps. Worked on a social media networking app & was responsible for UI/UX design , wireframing, providing prototyping in HTML/CSS , internal dashboard design and design systems, this led to the client getting 4 investors in a space of 6 months.

Duties & Responsibilities

- Creating user-centred designs by understanding business requirements, and user feedback
- Creating user flows, wireframes, prototypes and mock-ups in Figma and HTML/CSS
- Designing UI elements and tools such as navigation menus, search boxes, tabs, and widgets for client's digital assets
- Identifying and troubleshooting UX problems (e.g. responsiveness)
- Developing a comprehensive UX/UI design strategy for the clients' brand.
- Testing UI elements such as CTAs, banners, page layouts, page designs, page flows, and target links for landing pages
-
